

# Long-term Brand Relationships

## **Hewn**

I'm working with Hewn as a long term partnership. My goals are to show an easy install to my audience as I produce quality story and feed content for both parties socials. Using my photography skills I also worked with Hewn for product photography selling them full rights to groups of photos at a time.

## **Hound**

Hound is a paint company revolutionizing the way paint should be created which educating everyone in the process. As this long term partnership continues to evolve; I work closely with the team to shoot in house content (photos/video) to be used exclusively for their marketing. Occasionally I will create reels using the product myself in my home to promote to my creative audienc.

## **MaD seasoning**

MaD is a newer seasoning salt on the market. This year they are looking to take their marketing to the next level with product, lifestyle/action photography as well as videography. So they called me in as a multidisciplinary creative to hone down their vision. This client is exclusively networking on the brand site and socials , so has requested written captions as well.
